Description

SINGLE AXLE UTILITY TRAILER

Available in powdercoat and galvanized finish, the One-Sixteen single axle trailer is the ideal solution for hauling materials, power equipment, or running your business.

The standard model includes all the standard features required for a great trailer, but the optional add-ons mean more customization for your needs. The standard lay-in back gate removes the headache and frustration of wind drag. When required, simply use the quick releases to lay the tailgate flat on the hard wood floor. Alternatively, the bi-fold gate offers significant reductions for drag.

Get in touch with the dealer nearest you today to discuss what options and accessories will make your trailer just right.
